- Printing and Scanning documents
- Laminating Certificates
- Installing Softwares on customers machine

**24 October 2022 – 16 December 2022**  
**Backend Development Bootcamp**

- Intergrading backend into bootstrap templates using the following technologies:
  1. **JavaScript**
  2. **Nodejs/Expressjs**
  3. **MongoDB**
  4. **Rest APIs**
- For the grand finale hackathon hosted by Africa Agility we built a website called Unique Africa Org that makes learning easy for people living with dyslexia and dyscalculia. It had content catered for learners living with this condition and it also had a platform for teachers, to learn about how they should treat and teach these learners. And we took the second place on this hackathon.

**24 January 2023 – 17 February 2023**  
**Intro to webflow series**

### **ADPList**

- In order for us to get certified we were required to build an e-commerce website or a blog website or a website promoting local business/NGOs. And I was like why not go local? As a developer you should solve problems within your community before going international. And I decided to create a website for untrained chefs using webflow, untrained chefs is a restaurant around where I stay.

## 4 March 2023 – 5 March 2023 Landing Page(Freelancing)

### **Limitless horizon (PTY) LTD**

- I was given a poster to create a landing page out of it. I didn't have much resources from them, they just told me to be creative and be wild. I developed this landing page using html, css and javaScript, And I was given only a day to complete this website.
